SUMMARY

Having recently graduated with a Master of Computer Science from the University of Queensland, Australia, I am eager to embark on a career that leverages my academic achievements. My passion for technology is matched by my commitment to precision and detail, which I am excited to bring to a professional context. I am particularly interested in exploring opportunities where I can apply my skills in software development, data analysis, and machine learning to create impactful solutions.

EDUCATION

Master of Computer Science University of Queensland GPA: 6.75/7	Feb. 2023 – Jul. 2024 Brisbane, Australia
Bachelor of Information Technology Queensland University of Technology GPA: 6.5/7	Nov. 2021 – Dec. 2022 Brisbane, Australia
Bachelor of Engineering <i>Software Engineering</i> Jinling Institute of Technology GPA: 88/100	Sep. 2018 – Jun. 2022 Nanjing, China

PROJECT EXPERIENCE

Website Cookie Analysis and Privacy Policy Compliance Assessment

Project Overview: The project aims to evaluate the impact of website cookies on user privacy and the effectiveness of regulatory measures. Cookies are scraped from websites on the Alexa list using automated tools and classified using machine learning models. At the same time, the privacy policies of these websites are analyzed to check if they match the actual use of cookies.

Aladdin Intelligent Medical Service System

Project Overview: This medical system is embedded in SoftBank's Pepper robot, aimed at addressing the allocation of medical resources and the transmission of information during the pandemic, while also providing users with a highly interactive experience.

Squeeze-and-Excitation Residual Network-Based Singing Voice Detection

Project Overview: This project aims to develop an efficient singing voice detection algorithm for automatically recognizing and extracting the human voice component from musical signals. The algorithm employs advanced deep learning techniques, specifically the Squeeze-and-Excitation Residual Network (SE-ResNet), to enhance the accuracy and efficiency of detection.

HONORS AND AWARDS

Dean's Commendation for Academic Excellence - Semester 1, 2024 The University of Queensland	Aug. 2024
Dean's Commendation for Academic Excellence - Semester 2, 2023 The University of Queensland	Dec. 2023
International Onshore Merit Scholarship The University of Queensland	Nov. 2022
Dean's List for Excellent Academic Performance - Semester 1, 2022 QUT Faculty of Science	Oct. 2022
First Class Award Scholarship Jinling Institute of Technology	Nov. 2021

QUT International Merit Scholarship - Science Queensland University of Technology	May 2021
JIT Merit Student (two-time recipient) Jinling Institute of Technology	Dec. 2020
Third Class Award Scholarship Jinling Institute of Technology	Dec. 2020
2020 RoboCup China Open(Social Standard Platform) - Second Place Chinese Association of Automation & RoboCup China Open Organizing Committee	Nov. 2020
2020 RoboCup@Home Education Finals Standard Platform(1/10) - People's Choice Award RoboCup@Home Education Organizing Committee & SoftBank Robotics & MathWorks	Jun. 2020
Chinese Collegiate Computing Competition - Winning Prize Chinese Collegiate Computing Competition Organizing Committee	Jun. 2020

PUBLICATIONS AND PATENTS

Singing Voice Detection Algorithm Based on a Squeeze-and-Excitation Residual Network Journal of Fudan University (Natural Science)	Jun 15, 2021
A Singing Voice Detection Algorithm Based on Deep Residual Convolutional Neural Network Journal of Jinling Institute of Technology	Mar 20, 2021
EmguCV-based Screenshot and Stitching Software CN 2021SR1360875	Sep 15, 2021
Online Quiz System CN 2021SR1494556	Sep 5, 2021
Intelligent Medical Service System Based on Pepper CN 2021SR0041541	Jan 8, 2021

LICENSES & CERTIFICATIONS

Using Python to Access Web Data Coursera	Feb. 2022
Python Data Structures Coursera	Jan. 2022
Programming for Everybody (Getting Started with Python) Coursera	Dec. 2021
Dive into Deep Learning Synced	Oct. 2021
Machine Learning Coursera	Aug. 2020

SKILLS

Programming: Java, C#/.Net, C++, Python, JavaScript, React.js, SQL
Document Creation: Microsoft Office Suite, LaTeX, Markdown
